PROTEIN BARS

SPACE PROTEIN bars are low in carbohydrates (sugars) and high in protein, so they are ideal for athletes and ordinary active people who need to replenish energy at any time during the day. Thanks to the original recipe and genuine ingredients, the bars are extra soft, tasty and healthy. Our protein bars are enriched with collagen, giving them their fine structure and exceptional taste and improve joints.

SPACE PROTEIN bars are made in Slovakia in seven special flavors: coconut-cheesecake, salted caramel, cherry-poppy, cherry-yogurt, chocolate-caramel, chocolate and coconut.

The our product meets the highest quality criteria, which is futher accentuated by innovative and modern design.

JUNIOR PROTEIN BARS

The basis of children's nutrition should be a varied and balanced diet, which contains enough suitable carbohydrates, proteins, fats, fibre in combination with a sufficient drinking regime.

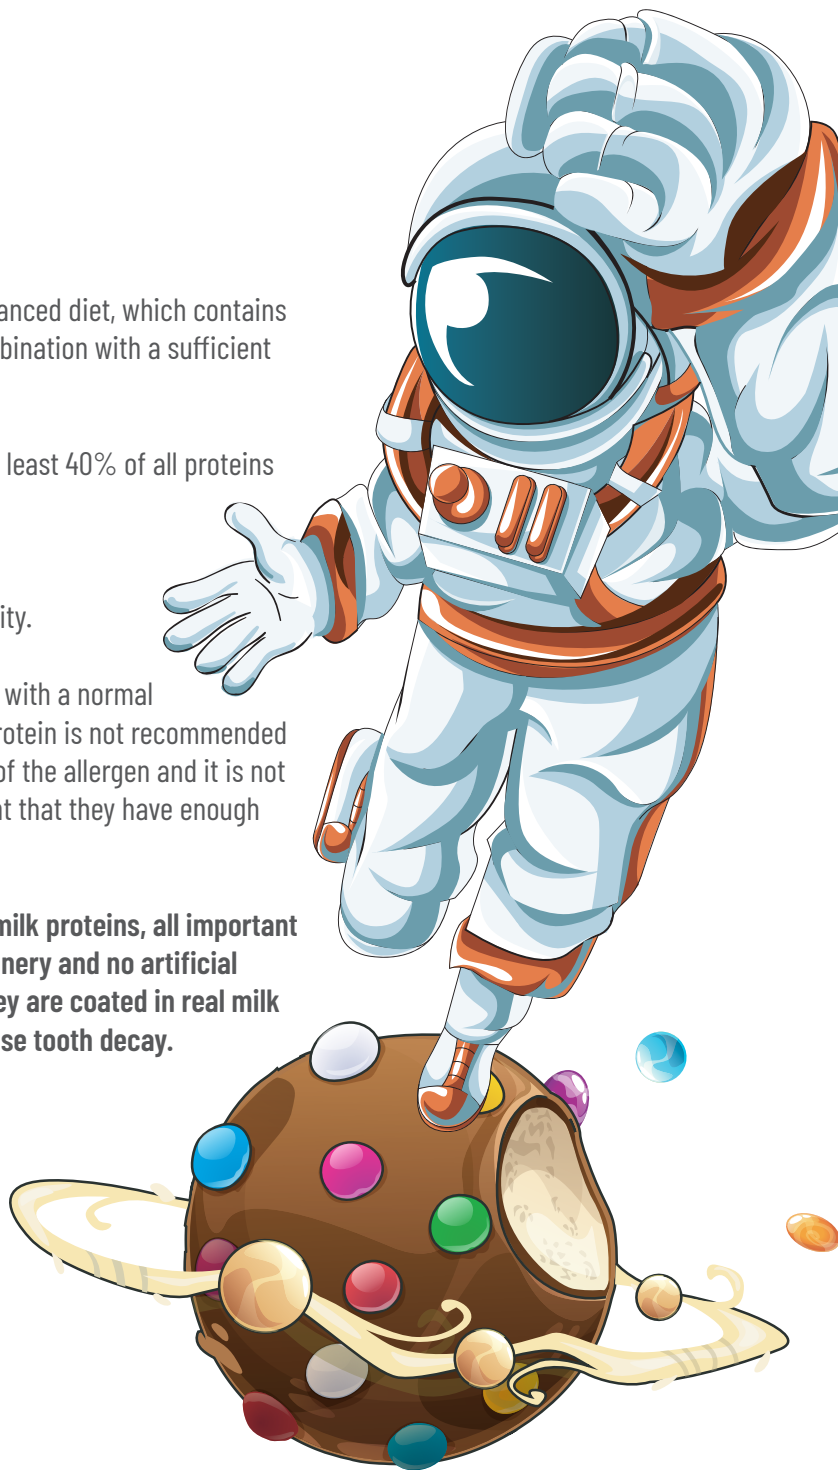

For healthy growth and development it is necessary that at least 40% of all proteins in a child's diet are of animal origin.

Protein deficiency not only leads to problems with growth and development, but can also cause a decrease in immunity.

If a given amount of protein is not replenished by the child with a normal diet, it may be the turn of protein bars for children. Soya protein is not recommended due to its anti-nutritional content. In addition, soya is one of the allergens and it is not present in our protein bars. As children grow, it is important that they have enough vitamins and minerals to ensure good health.

SPACE PROTEIN JUNIOR protein bars contain full valued milk proteins, all important vitamins and minerals, crispy coloured coated confectionery and no artificial colouring, and are an ideal snack for active children. They are coated in real milk chocolate with maltitol, which unlike sugar does not cause tooth decay.

VEGAN

QUALITY DARK CHOCOLATE

SPACE

PROTEIN

Our vegan protein bars are made from a natural blend of vegetable proteins. High-quality cocoa butter, lyophilized fruits and nuts are used for their production. Bars in addition, are free of gluten and added sugar. Bars are naturally gluten and lactose free, so they can be enjoyed by people who are intolerant to these food ingredients. Nevertheless, they retain their great taste and consistency. They are dipped in authentic dark chocolate. They are available in four delicious flavors. You can choose from raspberry, blackcurrant, cocoa or coffee. Find your favourite one!
